Nathan Baigné

PERSONAL INFORMATION

- 21 years old
- +33 7 81 48 53 57
- baigne.nathan@gmail.com
- 15 rue Anatole France, 29200 Brest, France
- Driving licence

LANGUAGES

- **French**: native language
- Proficient in **English**
- Working knowledge of **Spanish**

SKILLS

- C/C++, C# , Python, JavaScript, TypeScript,
- VueJs , .NETCore

Comfortable with both windows and Linux environments.

Teamwork, problem solving, flexibility, UX skills.

INTERESTS

- Fixing computers and phones (hardware and software)
- Skateboarding
- Climbing

REFERENCES

References available on request.

PROFILE

Committed and motivated computer engineering student who excels in web development. Curious and persistent, my first aim is to discover another way of living, but I also enjoy learning and discovering new technologies.

WORK EXPERIENCE

June - August. 2021 : Intern

ID3I, *Brest*, *France*

- Internship as a web developer in a small company specialised in high-performance, customised digital products. Carried out team work assignments on an in-house web project and a client project, both developed with VueJs framework and Vuetify plugin for frontend and with .NET Core framework for the backend.

2014 - 2021 : Programmer

SOFINTHER, *Rennes*, *France*

- Developed a business application for a department of nine technicians. Written in VBA within Excel (communicates with other Office tools), it allows the management of technical assistance,/calendar (Outlook), the edition of reports, and allows a statistical analysis of technicians.
- In progress: redevelopment of the application, with Vue.js/Vuetify and .NET Core for web access.
This made me self-sufficient in software development learning.

January . 2020 : Intern

DISROK, *Plouédern*, *France*

- Maintenance operations on quarry equipment
- Developed a tool (Excel in VBA) for managing machines to optimise regular maintenance and to have an inventory of parts
I acquired listening and adaptability skills.

June - August. 2019 : Handler

STAC OUEST, *Derval*, *France*

- Temporary assignment consisting of packaging/labelling products, sorting/repairing pallets and preparing orders.
I improved organisational skills.

EDUCATION

2018 - present : Ecole Nationale d'Ingénieurs de Brest (ENIB)
Brest National School of Engineering, France. Currently studying in the fourth year of a five-year course in General Engineering with Computer science Diploma expected in 2023.

2018 : SCIENTIFIC BACCALAURÉAT
GAINED THE BACCALAURÉAT, FRENCH SECONDARY EDUCATION DIPLOMA, WITH HIGH HONOURS
